Welcome to Levenshulme Pride

Levenshulme Pride exists because a gay couple was walking down the A6 holding hands and called 'faggots'. In an instant a pleasant walk in the sunshine became a homophobic hate crime. Just like that. Very casual. What better way to counteract hatred than to show the pride we have in our community, the pride we have as LGBT+ people and the strength that comes from that?

This is very much a community and collective event but it is also in the context of atrocities and ongoing oppression, persecution, hatred and violence against LGBT+ people both locally and around the world. So we are not doing this to have just another weekend festival of fun. We have Pride with a Purpose.

This year we have increased our venues from six to seventeen. The range and number of activities has expanded as well. Full listings will be available over the weekend and in advance online on our new website.

Our big public event is our March where we turn the A6 into the Gay6 (Saturday, 14.00 starting at Levenshulme Inspire). We also have a Vigil to remember the struggles and successes of the past, the challenges ahead and to thank everyone involved (Sunday, 16.00 on the Village Green beside our Levenshulme Bee).

On behalf of everyone involved in Levenshulme Pride, welcome!

Jeremy Hoad

Levenshulme Pride: No Barriers

"I'm delighted Levenshulme is celebrating another year of Pride. Manchester has a proud history of standing up for LGBT rights. Pride allows us to look back at how far we've come in the fight for social justice and celebrate the many milestones we have reached. Whilst recognising how far we have come along the road to equality, we must also look to the future for ways we can continue to build solidarity and make society more tolerant and inclusive of all. I wish everyone celebrating a happy and memorable Pride!"

Greater Manchester North West UK

LGBT Social Support Network

Supported by

We signpost LGBT people from all backgrounds, regardless of age, gender, ability or race, in and around Greater Manchester, to the support services and social groups, many of whom aren't the best at outreach, in order to raise awareness of the support available and improve lives.

Our partnership work and collaborative approach enables us to monitor services and hold organisation to account when they don't deliver what has been expected or promised.

We have been instrumental in organising three inaugural prides within the region and have another in the pipeline, as well as supporting the organisation and planning of others. We have contributed to research and supported numerous LGBT-related projects.

We aim to host a conference to bring organisations and individuals together to share knowledge and experience through talks, workshops and informative stands to improve communication, better promotion of projects and campaigns and be reactive to the needs of real people within the city and further afield.

“As a member of the LGBT community, it means a lot seeing pride events like this so I just wanted to say thank you and keep up the amazing work!”

***“I have never seen the town centre so busy.
I am so proud!”***

***“A really good way of getting the awareness message out to people who could be isolated.
You've inspired me”***
